CEDAR FALLS, IOWA

TO OUR CUSTOMERS

THIS IS A CATALOG OF DEPENDABLE THINGS

We do not sacrifice quality for price. You cannot get something for nothing. Our rapidly growing trade is with the class of people who are willing to pay a reasonable price for merchandise of quality. We do business on this principle—one good plant that grows and blooms is worth a half a dozen that are grown so crowded and weak that they never make a good plant, no matter how you pet and fuss with them.

Our list is not as large as some but you will find that we have discarded the varieties that are not suitable here and list only those we know will prove satisfactory to you. Owing to large increase in our cut flower business we have been compelled to reduce our list of hardy plants and shrubs retaining only the most popular varieties.

SERVICE

Service means quality of goods plus the ability to care for your orders in such a manner that you will come again—Our ever-increasing trade shows that we have both and we are giving them to our customers.

Any order that does not prove satisfactory in every way we are ready and glad to make right—if proper claim is made within a reasonable time after time of shipment.

Errors. If goods received are not as expected compare with order, read Catalog carefully, and if we are in the wrong, write us at once. Every just complaint will have immediate attention.

Remit by bank draft, express order, post-office order or registered letter. If personal checks are sent add 5 cents for exchange.

To Responsible Parties goods will be sent on approval.

Plants by Express. Have your plants, shrubs, etc., sent by express when you can possibly do so. We guarantee safe arrival of all goods by express.

NOTICE. Plants by Mail. Add 10c per dollar on all orders for plants to go by mail. Prices given in this catalog are not prepaid. Postage or express is to be paid by purchaser. All large plants must be sent by express.

POINTS ON THE CULTURE OF FLOWERS

Treatment of Plants Received by Mail. If plants are wilted immerse them in water, without removing the packing material and allow them to remain for half an hour. Then unpack and set in small pots in rich fibrous loam, shade from the sun and sprinkle foliage every day being careful not to overwater the roots until the plants begin to grow, after which they may be shifted to larger pots if necessary.

Soil in Which to Pot Plants. The best soil for most plants is composed of two-thirds good garden soil, and one-third well-rotted manure, well mixed together. If not naturally sandy it is well to add some sharp sand.

Watering. Whenever the plants are dry water so that the earth will be saturated, and no more. No water should be allowed to remain in the saucers under the pots except in the case of aquatic plants. Soft-wooded plants require much more water than hard-wooded ones.

Drainage is of the utmost importance. Every large pot should have at least an inch of broken pot, shredded moss or charcoal in the bottom.

Syringing. All plants are benefitted by liberal spraying two or three times a week on the under side of the leaf.

Air. Ventilate well every day when air above freezing point can be admitted. Do not allow cold air to blow directly against plants.

Insects. One of the most disgusting of these is the Scale which attacks the Ferns, Palms, Ivies, etc., lodging on the stem and under side of leaf. There

is no remedy but scraping off and destroying. A severe scrubbing with an old tooth brush and soap will remove the scale. Mealy bugs lodge in the axils of the leaves and are easily removed by using an old tooth brush. Red spider shows itself in a brown dried condition of the leaves and is an indication of too dry an atmosphere. Sponge, sprinkle or wash the leaves often and thoroughly. The Green Fly or Aphis, is best destroyed by tobacco smoke, if the smoke can be confined about the plants; otherwise a tobacco tea, made by steeping one pound of tobacco stems in four or five gallons of water, can be used. Dip the plants in the liquid or sprinkle them thoroughly with it; or moisten the plants with water and sprinkle tobacco dust over them, letting it remain until the usual watering washes off.

Worms in the Soil. Lime water will usually expel them without injury to the plant, one part lime to twenty parts water, and when clear, give one or two waterings.

Mildew. A whitish or moldy appearance of the leaves. It is caused by a sudden change in the atmosphere from great heat to cold, or by a draft from open windows or door. At first appearance dust them with sulphur.

HOW TO CARE FOR PLANTS

HOW TO KEEP CUT FLOWERS

We have two pamphlets printed on these subjects and would be glad to send them free to any of our customers if you mention same in ordering.

NOTICE—Owing to New Postal Ruling special delivery packages over 2 lbs. will cost 25c. This charge will apply to all cut flower orders except dollar prepaid boxes.

CUT FLOWERS

We are cut flower growers—not dealers. Come and visit our greenhouses when in this locality.

In design work and loose cut flowers we are better than ever prepared to care for your wants. With 60,000 feet of glass devoted to flowers, our excellent facilities for storing and shipping, we are sure that you cannot do better elsewhere. We carry on hand the largest stock of seasonable cut flowers in Central Iowa, even in the largest cities few firms carry the stock that we do. Frequently persons are undecided what to order and at such times you may leave the selection to us, stating what you wish to use them for and the price you wish to pay.

WHEN TO ORDER. Give us as much time as possible. Do not be afraid to order even a week or two ahead. You are sure of getting just what you want. Where an order is not sent in until the last thing, we sometimes have to substitute either in kind or color of flower wanted.

HOW TO ORDER. All customers will please notice that orders for early morning shipment must be in the night before. Our Post Office closes at 7 p.m. If you are not sure that your order will reach us before that time, it is safer to wire us. Telephone messages can be sent after 8 p.m. at considerable reduction. It is always best to telephone or telegraph your order when time is limited, as you are then sure of reaching us on time. Don't trust the mails; trains are often late and we often do not receive orders on time.

SUNDAY AND HOLIDAY MAIL. If your order is sent by mail for next A. M. shipment, be sure and affix a special delivery stamp if letter is liable to reach here on Sunday or holiday, as we do not receive all our mail until day following.

FLOWERS BY EXPRESS. All cut flowers, designs, etc., packed to carry long distance safely, either winter or summer.

FLOWERS BY MAIL. On request we often send small boxes of loose cut-flowers by mail, as a rule they reach their destination all right, especially carnations, but much prefer sending by express, as flowers carry better. If orders are to go by mail, add 25c postage which includes special delivery stamp. We positively will not be responsible for time of delivery or for flowers freezing in transit by mail.

TERMS AND CONDITIONS. Cut flowers are strictly cash, and payment must be made immediately on receipt of flowers. We seldom send C. O. D. It often embarrasses those who buy, and it is a needless expense.

COMPLAINTS to be allowed should be made immediately on receipt of flowers. We stand ready always to make any wrong right.

RESPONSIBILITY. While we exercise the greatest care to have all flowers reach their destination on time, and, will not ship unless we are reasonably sure they will reach you on time, we positively will not be responsible for delays in trains, wrecks or express agents' negligence. Should your flowers reach you too late, accept them under protest, do the best you can with them. If for a funeral, lay them on the grave, we will share the loss with you and take care of any claim against express company.

OUR SHIPPING FACILITIES. The fact that the great harvester companies have their general agencies in this city is in itself a sufficient guarantee that there are none better in Northern Iowa.

ASSORTED BOXES OF FLOWERS, our selection. We put up thousands of these boxes throughout the year and invariably they give splendid satisfaction, being our own selection, we can always give splendid value. Are sent prepaid (special delivery) any where and are suitable for any occasion, \$1.00, \$2.00, \$3.00, \$5.00 prepaid.

Flowers for the House the Season Through:

A BIRTHDAY

Send Flowers

For the home, a party, for a birthday, or for a sick friend. Just mail us your card and with the address of the person who is to receive it, and we will do the rest. We know you will be pleased.

Have you a friend you would love to remember, then say it with flowers, the most beautiful of remembrances. Our assorted boxes, \$2.00 and up, are very appropriate—say when they should reach destination.

You enjoy having flowers in the home and having them on the table when you have a few friends in; why not have them oftener? Part of the year you cannot grow them, but we make it easy for you to have them whenever you like, at a small cost. Our \$1 and \$2 boxes of cut flowers sent prepaid anywhere are always suitable whatever the occasion.

VERY IMPORTANT

How to Keep Your Cut Flowers

All design work. Leave in the boxes and set in a cool cellar until ready to use.

Loose Flowers. Remove from boxes at once, clip ends of stems and put them in water and set in cellar, using deep vase with plenty of water at bottom, and see that the stems are down in the water. By securing loose flowers early and keeping them 12 to 24 hours before using, you double the value of the flowers.

HOLIDAYS

Owing to the extraordinary demand, it is sometimes impossible to give you exactly the kind of flowers ordered. We do our best, but our customers will find we can give better value in mixed boxes of our own selection, \$2, \$3, \$5, \$10.

DECORATION DAY

One of the hardest days of the year to supply the demand. If the weather is hot and damp, it is a time of poor quality and high prices. We shall endeavor to bill all stock at most reasonable prices, according to quality. Prices from May 28th to June 1st will be about as follows:

Carnations, assorted colors only and our selection, \$1.50 per dozen. Purchaser's selection of color, \$2 and \$2.50 per dozen; **Roses**, assorted colors, our selection of color, \$1.50 and \$2.00 per dozen, extra fancy \$3.00 and \$4.00 per dozen; **Columbia**, Premier and other best varieties, \$3.00 and \$4.00 per dozen, extra long, \$6.00 per dozen; **Jasmine**, 60 cents per dozen, \$4.00 per 100; **Gladiolus**, \$3.00 and \$4.00 per dozen; **Lilies**, \$4.00 per dozen. Count of lilies includes buds.

GERANIUMS

The Geranium is the most popular plant for bedding purposes, and deservedly so, as they continue to bloom profusely in the hot summer months when other plants are scorched by the sun and dry weather. The new double varieties bloom as freely as the single and make as fine bedders, being more durable.

Our list of flowering Geraniums will be found complete. We have taken great care in selecting the different varieties showing characteristics of their own.

The varieties listed are the best bedding varieties on the market today. They are the best there is for basket, window box and bedding outside.

HOW TO HAVE A GOOD BED OF GERANIUMS

Plant in medium soil, not too much sand or manure. See that they are in a bright, sunny place. After they once become established do not over-water as this will have a tendency to make them go to leaf growth; when weather becomes very hot a light mulch is beneficial. Always keep soil around plants stirred to a depth of at least one inch. Keep plants free from all old flowers and leaves and if any of the plants become ungainly, pinch off ends of long shoots.

SPECIAL NOTICE—have your Geraniums shipped by express—it takes a long time for them to get over mailing.

A SELECT LIST OF BEST DAHLIAS (Priced Separate)

The Dahlia is now taking first place among autumn flowering plants; this is largely due to the splendid new sorts that are being brought out in the Cactus and Decorative class. There is nothing that can equal them in range of color and abundance of bloom. Any good, rich garden soil, not too wet, will grow good Dahlias. Show and decorative types are the smoother petals. Cactus are the curled and twisted petals as shown in the cut.

Plant Dahlias in open ground, about the first of May, if the ground is at all cold and wet defer planting until later date. With us, the started plants have proved as good as the tubers. In fact, they come into bloom more quickly than the tuber and are cheaper.

Always stake your Dahlias as soon as they are tall enough, using good stout stake at least 4 feet high. In the fall, after hard frost, cut the tops off within 3 inches from the ground, take up and store in a cool cellar free from frost.

SPECIAL OFFER ON DAHLIAS. We have a fine lot of best named varieties that did not bloom early enough last year to true up. We offer them in assortment divided clumps—7 for \$1.00. They will give you satisfaction, as they are not only cheap, but they are valuable sorts.

(Columbia) Interior View of One of Our Rose Houses

Our four Rose Houses, covering over 23,000 square feet of ground, built at a cost of over \$20,000 and planted with the best varieties grown for cut flowers, gives us a large range of color and variety with an almost continuous supply throughout the entire year. See pages 4, 5 and 19.

STANDARD COLLECTION OF EVER-BLOOMING ROSES

These Roses are especially suited for summer bedding where large quantities of blooms are wanted. Are not hardy in this climate.

Bon Silene. Bright cherry crimson; strong vigorous grower; wonderful bloomer.

Duchess de Brabant. Light rose, heavy shading of amber and crimson.

Gruss an Teplitz. Richest scarlet, shading to a velvety crimson; larger than Hermosa.

Hermosa. Rosy Pink. An old garden favorite.

Mad. Cecil Bruner. Popular baby pink rose, comes in clusters, used largely for corsage.

COLLECTION OF TEA ROSES

The flowers are much larger and more perfect than the preceding list but not in such quantity.

Madam Cochet. Rich healthy foliage, long-stout stems, extra large and full. Bright rose.

Mad. Butterfly. A glorified sport of Ophelia, a wonderful shade of old gold, orange and yellow.

Kaiserine Aug. Victoria. Best summer bloomer white.

White Killarney. Identical with pink, except color, which is pure white.

Columbia. The Rose of all Roses, beautiful, clear, glistening pink, exceptionally strong grower, long stems, keeping qualities are very good. One of the best summer flowering roses.

Premier. Deep rose pink and very free flowering. Large size, good keeper.

Golden Ophelia. Similar in growth with Ophelia. Color, clear golden yellow.

Commonwealth. Strong, rugged grower, very dark pink. A strong grower and splendid summer bloomer.

America. Of large size. A tremendous bud, light, clear pink like Columbia. Bud long and pointed.

Mrs. Coolidge. A pure yellow butterfly. One of the best bloomers we have. Strong grower.

American Legion. A wonderful grower and producer. A beautiful light, clear red.

Sensation. Very large pointed bud. Strong grower, a rich velvety crimson.

Templer. Is not a big rose but is a wonderful bloomer. Very free, dark rich red.

PRICES OF ALL TEA AND EVER-BLOOMING ROSES

Except where noted, first size, 15 cents each, \$1.50 per dozen; second size, 25 cents each, \$2.50 per dozen. Our selection, ten strong plants from 3-inch pots, especially suited for summer bloom, for \$1.75, by express. These will give you more satisfaction than \$3 invested in cheap little roses.

BABY RAMBLERS

All perfectly hardy and wonderful blooming qualities. Grow about 24 inches high, are ideal for bedding out as they flower almost continuously. Flowers in clusters like Crimson Rambler.

Ping Baby Rambler. Clear rosy pink, equal in growth to the red.

Red Baby Rambler. Plant vigorous, foliage dark and glossy. Flowers rich crimson.

Jessie. An ideal Rose, possessing bright green foliage exempt from mildew, with a bushy branching growth; bright cherry crimson.

Ideal. Brilliant Garnet red.

Baby Tausendschoen. Similar to the climbing variety, its charm lays in the variable coloring, changing from white to shades of pink.

Price of Baby Ramblers; small plants, 25 cents each; large size, 50 cents each; large specimens, \$1.00, \$1.50 and \$2.00 each.

We have them in bloom in larger sizes at this price for Easter, Decoration Day and Mother's Day.

Baby Rambler

HYDRANGEA

These beautiful shrub plants are valuable for lawn or porch decorations when planted in pots or tubs. The large clusters of flowers resemble those of the Snowball, being larger and remaining on the plant from two to three months.

Thomas Hogg. Large pure white, free bloomer.

Otaska. Bright pink. Sometimes tinted blue; dwarf, sturdy habit; profuse bloomer.

Avalanch. A splendid large white.

Specimen plants in bloom during spring and early summer.

THE CARDINAL CLIMBER

A NEW TENDER CLIMBER

Very strong grower, beautiful fern-like foliage literally covered with a blaze of fiery cardinal red flowers, from mid-summer till frost.

25 cents each, 5 for \$1.00.

CYCLAMEN

Giant Flowered. Most beautiful and decorative of all pot plants, for winter and spring blooming. Foliage broad, massive and graceful, of dark green, beautifully variegated with silver and rose. The flowers are carried on long stems and produced in profusion for several months. First size, separate colors, suitable for next winter's bloom at 25 cents each. Large size in fall, \$1, \$1.50.

PALMS

Kenita Belmoreana. An elegant species in which the Pinnae are beautifully curved and reflexed. One of the easiest to grow in cultivation. Nice plants \$1 each; large size, \$2, \$3 and \$5 each.

Kenita Forsteriana. Similar to the preceding, but taller and more robust. Nice plants, \$1 each. Large size, \$2, \$3 and \$5.

Areca Lutescens. A most elegant palm, \$1, \$2 and \$3 each.

Latania Borbonica. (Chinese Fan Palm.) One of the most desirable for general cultivation. Especially desirable for center vases, etc. \$1 and \$2.

Phoenix Ruebleana. Dwarf feathery growth. Very suitable for center of fern dishes. Takes the place of cocoa palm and easier to grow, 75c and \$1.00.

PANSIES

The Pansy begins to bloom in February and continues until late in the fall. Should be placed in very rich soil and watered freely. We offer a fine collection of carefully grown, from pots, that are sure to give satisfaction and bloom freely.

Our Special Mixture. Containing a fine mixture of all varieties. 60 cents per dozen. \$4.00 per 100.

SALVIAS

The Salvias now rank with the geranium in importance as a bedding plant. These French varieties are especially valuable on account of their dwarf and compact habit, and coming into bloom in mid July.

Clara Bedeman. Tall, upright grower.

Fireball. Dwarf compact habit, very free flowering. Flowers brilliant scarlet.

PRICE OF SALVIAS: First size, 10 cents each, \$1.00 per dozen, \$6.00 per 100. Second size, 15 cents each, \$1.50 per dozen, \$10.00 per 100; third size, 25 cents each, \$2.00 per dozen; 16.00 per 100.

VERBENA

Is one of the prettiest and most popular of the flowering plants suitable for forming beds on the lawn. It commences to flower and spread from the first day the plants are set until late in the autumn. Colors are white, blue, purple, pink, rosy, crimson, striped. 75c per dozen. 4 for 25 cents.

SANSEVIERA ZEYLANCA

The leaves grow to a length of 3 to 4 feet and are beautifully striped crosswise, with broad white variegation on a dark green ground. 25 cents each; large size, 50 cents each.

VINCA

This great window-box and hanging-basket plant increases in popularity each year.

Major Variegata. A beautiful variegated trailing plant. Leaves glossy green, broadly margined with creamy white; flowers blue, 15 and 25c each. \$1.50, \$2.50 per dozen.

Extra large, 40 cents each, \$4.00 per dozen.

Green Variety. Similar to the variegated, but leaves beautifully dark green. 10 and 20 cents. \$1.00 and \$2.00 per dozen.

Hardy Green Vinca. Very suitable for grave use, 15 cents each, 4 for 50 cents.

Vinca Flowering. Pink and white, blooms all summer. Fine for out door bedding. 10c each, \$1.00 per dozen; large size 20 cents each, \$2.00 per dozen.

VIOLETS

Mrs. C. W. Fry. Long stems and large flowers, deep blue. Very prolific. 15 cents each.

SMILAX

There is no climbing plant in cultivation for winter use that surpasses this in the graceful beauty of its foliage. Of no use outside in summer. 10 cents each; large size 20 cents each.

Pelargonium or Lady Washington Geraniums

Slowest mass of bloom produced on any soft-wooded plant that we have. The flowers are of good substance, beautifully ruffled and fluted while the colors are perfection in gorgeous shades and markings and of great size and much better bloomer than the older varieties.

Mad. Vibert. Ruffled flower fiery red, with black blotches.

Easter Greeting. The new species is the earliest of all Pelargoniums with enormous florets and clusters having light green foliage and of dwarf robust growth. Blooms from March until fall. The flowers are of a fiery amaranth red with five regular shaped spots.

Swabian Maid. A sort of Easter greeting, reddish carmine with five large black blotches bordered purplish carmine.

Gardener's Joy. Enormous clusters, apple blossom pink, two upper petals blotched carbon brown.

PRICE OF PELARGONIUMS. Small plants, 25 cents each; large size, 50 and 75 cents each.

PANSY GERANIUMS

Mrs. Loyal. The flowers are of medium size and have white throat. Each petal is shaded toward the center with a rich lavender pink and a dark maroon blotch in the center; is of easiest growth, dwarf in habit and literally covered with flowers. 25 and 50 cents each.

HARDY ROSES—A Selection of the Best

Knowing that there is a greater loss of Hardy Roses than any other dormant plant, it shall be our earnest endeavor to supply our customers with the very best plants possible, guaranteeing them to be in good condition when shipped.

HOW TO PLANT—VERY IMPORTANT

When planting, care should be taken to set the plants deeply, planting them at least two inches below first point or branches and pounding the soil firmly around the roots. Don't crowd the roots, but dig a good, large hole, spreading out the roots: work the soil around the roots and pack firm as you fill the hole. When about two-thirds full of soil, give thorough watering, then when water soaks away, fill up the hole and firm the soil with your boot. Never for an instant expose the roots to the hot sun. If weather is very warm, protect the dormant plants with straw, sacking or other protecting material, until the tops swell, gradually accustoming them to the light and air. By carefully observing above, you will have no trouble to make your dormant plants thrive, where by careless planting and after-care, one-half will die.

Winter Protection for Rose Plants. This may be done with material most convenient at hand, such as leaves, straw, light manure, street sweepings, pine and cedar boughs, etc. Large Rose bushes will stand several degrees of frost and the covering should not be put on until winter has set in.

How to Make Roses Bloom. In the axil of each leaf is a latent bud. Should the long, strong shoots or branches be placed and kept in a horizontal position, each latent bud will produce many flowers. Cut wooden hooks and peg the long straight shoots firmly to the ground. These branches will not only flower early and late, but will make robust wood, which can be treated in the same manner the following spring. Monthly and Hybrid Roses can thus be made to bloom continuously.

Suckers. Always remove any suckers that come up at side of plants—they are from the root graft of the rose, and they will not bloom and only rob the vitality of the plant.

HYBRID PERPETUAL ROSES

Frau Karl Druschki. One of the finest pure white roses.

General Jacqueminot. Rich, velvety, crimson, changing to scarlet crimson. Very fragrant.

Magna Charta. Extra large, full flowers; very double, clear rose, blushed with carmine.

Mme. Plantier. Grows in bush form, flowers in great abundance in June. Pure white.

Mrs. John Laing. Beautiful soft pink, delicious fragrance; of exquisite shape; very large and double.

Prince Camille de Rohan. Rich, dark velvety crimson, passing to maroon shaded black.

Ulrich Brunner. It is of a rich, glowing crimson scarlet color. Free, continuous bloomer.

FOUR NEW HARDY CLIMBING ROSES OF UNUSUAL MERIT

Alida Lovett. Bright shell-pink with light yellow shadings at base of petals, flowers of good size and quality. A most desirable climber.

Mary Wallace. Named by the Portland Rose Society in honor of the daughter of Secretary Wallace, originated at the Maryland Station of the Department of Agriculture by the late lamented Dr. W. Van Fleet. Described as a pillar Rose, making a fine strong, self-supporting plant 6 to 8 feet high, with large glossy foliage, blooming with great freedom in spring and bearing a considerable number of fine buds in summer and fall. Flowers very large, generally exceeding 4 inches across; well formed, semidouble, of a bright clear rose-pink salmon base to the petals.

Dr. Robert Huey. Similar in habit of growth and form of flower to Paul's Scarlet Climber, but of an intense dark crimson color, and when fully expanded shows its numerous golden stamens, making a beautiful color combination.

Paul's Scarlet Climber. No other climbing Rose can compare with this for brilliancy of color which is maintained until the petals fall. The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes, the plants being literally covered from top to bottom with bloom. It is of strong climbing habit and perfectly hardy. This is one of the most popular climbing Roses.

These four roses are of rambler type, are perfectly hardy and different from others. Strong 4 inch pot plants only 50 cents each. The four for \$1.50.

Bancroft's Money Saving Collection of Popular Plants

These collections are put up for those who want good small plants, yet do not feel able to pay the higher prices charged for those named in catalogs. We sell many thousands of money saving collections yearly, to satisfied customers. Try them. We know you will be more than pleased.

All orders for our Surprise Collections will be acknowledged and entered on our books as received.

We usually commence to send out the collections of Tender Plants about May 1st, and Hardy Plants, the latter part of April. We cannot promise to send them out before these dates. We cannot permit any change in the composition of these collections or in the time of delivery. Always order by letter.

All collections are strictly our own selection of varieties.

Combine your orders, having them shipped by express, and you will be more than pleased with the splendid value you receive. The cost is so small and the extra value of the plants will more than compensate you for the small amount of express charges YOU will have to pay.
